Red Raspberry						
Lemon						
Orange						
Grape						
Watermelon						
Wildberry						

TRIX Trawl

Instructions

1. Using the ruler measure and mark with tape both long sides of the cookie sheet. These are your *transects*, the lines that you will sample from.
2. Drag the tablespoon from the mark on one side to the corresponding mark on the opposite side. This is your *trawl net*. You may not touch the cereal with anything but the spoon.
3. Sort the cereal into groups of the same shape/color type and record on data sheet.
4. Repeat until all steps until transects are complete.
